Jeff Bezos is the founder of Amazon.com. This company sells books and other things online. Jeff Bezos also owns a rocket company -Blue Origin. The first flight of Blue Origin's New Shepard (name of the rocket) blasted off on April 29,2015. On July 20,2021, New Shepard took off in Texas in the United States. That was the first time of this rocket carried human to go to space. There are three people with Bezos. They are Jeff's brother Mark Bezos, an 82-year-old woman named Wally Funk and an 18-year-old student named Oliver Daemen. They experienced about 10 minutes' space travel. This travel didn't have any scientist in the rocket. It's amazing.
